

Pam Kossman  
Heartfull Designs in Norfolk, VA

Heartfull Designs are enthralling captivating jewelry pieces by artisan, Pam Kossman. A wanderer at heart, Pam's current work includes inspiration from travels in Botswana, Kenya, Rwanda, South Africa and Egypt. Included in many pieces are recycled materials, as well as findings gathered selectively from women's collectives that sponsor endeavors in bettering these women's lives and those of community children. (She was there!) Heartfull Designs also donates to causes dear to Pam's heart: cancer, children, women and animals.

Design components include unusual combinations of natural gemstones, pearls, turquoise, sterling silver and 24kt gold. Integrating Bali silver and gold, Pam uses elements from her own silversmith. Styles vary with every design and stone (and this artist's wistfulness); each piece is a unique work of art and therefore never repeated. The collection maintains its creative edge by using bold and whimsical touches. Versatility in wearing, blending of several necklaces as one, and adaptability in extending lengths add to design ingenuity. Think trendy Fifth Avenue, nature's palettes, exotic travels, a dash of granny's closet, a splash of flash, and an OH-MY-GOSH!
